PATENTS.

AMERICAN AND FOREIGN OFFICE.
AGENCY FOR BUSINESS
WITH THE U. S. PATENT OFFICE
WASHINGTON,
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, (generally about 30 per cent. less than those of others in the profession) but avail themselves of the experience of 20 years practice, his visits to the Patent Office an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents.

Copies of claims of any patent furnished by remitting *one* dollar. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

R. H. EDDY,
Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

"August 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Sept 12 1855. Commissioners of Patents.

Being convenient and agreeable in its use, experience has proved that it retains in every climate its desirable and truly valuable character. It is in the form of a paste, is tasteless, and does not impair the digestion. It is prepared with the greatest possible care, upon well tested principles. To persons following the sea, or going long voyages, this preparation possesses qualities far surpassing any other—neat and portable in its form, speedy and efficacious in its operation, successful both in the earliest and worst stages of the severest diseases, whilst the usual and nauseous taste and unpleasant odor to copaiba is wholly avoided in this preparation.

Prepared and sold wholesale and retail, by JOHN A. TARRANT, successor to James Tarrant, 278 Greenwich street, corner of Warren, New York ; and for sale by the principal Druggists in the United States, British Provinces, West Indies, and South America.

THORN'S Compound Extract of Copaiba and Sarsaparilla possesses a few advantages not enjoyed by any other medicine for the cure of sexual diseases; and which must, with an enlightened public, render it assuredly highly popular, and a desideratum long sought for in the medical world. It needs no confinement or change of diet. In its approved form, that of a paste, it is entirely tasteless, and causes no unpleasant sensation to the patient.

It has acquired the utmost fame in almost every part of Europe ; it has been examined, approved of, and sanctioned by the faculty of medicine, and recommended by the most eminent of the profession. Prepared by J. B. THORN, Chemist, London, and for sale wholesale and retail, by J. A. TARRANT, sole agent for the United States, 278 Greenwich street, New York

BY CRANSTON & NORMAN

144 THAMES STREET.

THURSDAY MORNING, NOV 8, 1855

☞ There has not probably been a season, for many years past, when so heavy a Southern and Western trade has been done in New York city, as the one now drawing to a close—and the heavy importations of goods to supply this demand has caused, as a matter of course, a corresponding degree of indebtedness abroad. To meet this, will require all the energy of the merchants there, and if money continues *tight*, it will not be a great wonder. New York city is in many respects the great market for the western continent, and it is not strange, therefore, that its business should increase from year to year, and required still further dominion to accommodate the business. It is only a few years since the jobbing business was confined to the lower section of the city—say below Maiden Lane, but now, some of the heavest houses, are half a mile above this, and the trade greatly advancing in that direction.

☞ Our readers will find some of the Election returns in our Telegraph column.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS.

BY THE GOVERNOR:

A PROCLAMATION.

Praise is the privilege of nations as well as of individuals. There should be occasions when the grateful feelings of a Christian people may be solemnly expressed. The State that is forgetful of the Divine source of its life and prosperity, has lost its nobleness, and is nigh to its end. Our fathers felt this. In the wisdom of true faith they were in the habit of observing such occasions of public praise to the Almighty, for His special mercies to them as a people. Feeling that God is to be recognized by the people of this State, as gratefully now as in former times, and that we have indeed innumerable superadded reasons of thankfulness, I, WILLIAM W. HOPPIN, Governor of the State of Rhode Island and Providence Plantations, by authority of law, appoint THURSDAY, THE TWENTY-NINTH DAY OF NOVEMBER instant, to be observed as a day of Public Thanksgiving and Praise.

I would invite the people of this State to suspend on that day their secular occupations, and to consecrate it to the solemn and joyful service of God.

Let us render hearty thanks unto Him that He has mercifully preserved to us all those that make life desirable,—our freedom, our equitable laws, our means of intellectual advancement, our sources of honorable business enterprise; and, above all our religious blessings, the gift of the Gospel of Peace, the heavenly influence of its truths, and the opportunity of eternal life to all, through Jesus Christ our Lord.

There seem to be also peculiar reasons of gratitude that have arisen to us as a people during the past year.

Unto the pestilence that has desolated other parts of the land, God has said, "Thus far shalt thou go, and no farther," and we have been graciously spared.

While, therefore, we enjoy with cheerful hearts the social and religious blessings that have been vouchsafed to us, let us not forget those who are afflicted. Let us pray that where sorrow and death have abounded, consolation may abound. Let us beseech God that peace may return to the earth, and that all the causes of war, oppression, hatred, and cupidity may be removed.

I would earnestly recommend that a spirit of generosity to the poor be mingled with the sacrifice of prayer and thanksgiving.

Given under my hand and seal of said State, this fifth day of November, in the year of our Lord one thousand eight hundred and fifty-five, and of Independence the eightieth.

L. S.

WILLIAM W. HOPPIN.

By His Excellency's command.

JOHN R. BARTLETT, Secretary of State.

IT IS BLESSED TO GIVE.—"It is more blessed to give than to receive," are words of truth, and have a broad application and meaning. If all really believe those words and acted upon the belief of them in their full extent and spirit, how would happiness abound! Would not the rills of joy leap up in every barren waste? The muses of love would sing in the heart's desolate places. Poverty now haggard and worn would look up smilingly and sunnily from amidst its rages, and soon put on the garment of plenty and delight. "Love your neighbor as yourself." How little is the command understood; how little is it heeded! Yet it is given for the good of all.

KIND WORDS.—Kinds words are circulating mediums between true gentlemen and ladies at home, and no polish in society can atone for the harsh language and disrespectful treatment too often indulged in between those bound together by God's own ties of blood, and the still more sacred bonds of conjugal love.

NEWPORT, NOVEMBER 3, 1855.

On my return from Narragansett I thought best to look in on Newport, to learn what was going on, and to see how the city appears, now that it is *wholly left* to the sway of those who claim it as their home. A few weeks have made great changes in the aspect of things, and the city is as quiet and demure as the most staid could wish. The animation so marked in the summer, has given way to a repose almost as universal as that of the wilds in which I have recently been wandering. The hotels are ghostly in appearance; hollow, heartless places that one is now tempted to shun. No beautiful children are seen at play in the Touro Park, and as for the beach, the waves roll in without a soul to watch their gambols on the sand.

I observe there is a little building going on, and possibly more will be in hand before spring. The erection of the Congregational Church will soon be commenced, as the stone-cutters are at work under the spreading branches of the old walnut tree that has shed its leaves there for more than a century; and the terrace on which the late edifice stood, and which was a part of the garden attached to the Bannister estate, has been wholly removed, to make room for the new structure. At the Atlantic House Mr. Weaver has built another immense cistern on the east side of the house with the faint hope that this additional supply will enable him to furnish the house during the summer, without having to depend upon a water-cart. The supply of water has always been short on the hill, and the hotels have experienced much inconvenience in a dry season.

A party was given a few evenings since at the Club House, by the members of the Newport Reading Room, which was attended by a large number of the ladies and gentlemen of the place. The rooms were all well filled, the company enjoyed a delightful evening, and ample justice was done to a superb supper prepared by the regular attendants at the Club. This association of the gentlemen of the place, to my knowledge, has been instrumental of much good. Many deserving poor persons have received a generous support at their hands, during a season of sickness, and in one instance the sum of two hundred and fifty dollars was immediately raised to assist a family in distress. Wood, coal and provisions have been freely dealt out to the destitute, much to the credit of all concerned. The Club House is the estate formerly owned by the late Wm. T. Potter, corner of Church and Bellevue streets. It is elegantly furnished throughout, and has a reading-room, with a valuable library of reference, billiard table, &c.

Recently an effort has been made to increase the usefulness of the Redwood Library, by issuing new stock, with the hope of adding to the number of shareholders and to the means at the disposal of the directors, for the purchase of new books. Many friends of the institution are also desirous of having the library opened daily—a measure full of promise, and one in which every stockholder must take an interest.

Two lawyers of this ancient city have suffered of late, and although the losses of the one have been the "town talk," the mishap that befel the other is not so widely known. The one won and lost a valuable pin; the other was robbed of plate and plated ware. The first shows clearly there's many a slip between the cup and the lip; the latter is thought to be a judgment on the plaintiff for having so often defended rogues, knowing them to be such.

The case of the pin is this, as I understand it:—The lawyer was called upon by the wife of a gambler to draw a deed, who at the same time informed him there was to be a raffle at the saloon (where their friends nightly met) for a pin, valued at five hundred dollars. He remarked that he would like to take a chance, but did not happen to have the money about him at the time, in which there was nothing remarkable or likely to surprise her. The raffle came off and a large number of those interested in such schemes were present; but when our lawyer's name was called there was no one to respond, and so a friend offered to throw for him. The cast won the pin, but the holder refused to give it up, on the plea that the chance had not been paid for. The lawyer, learning through a tall friend that luck had fallen in his way, at once appeared, forked over the money and claimed the pin; but not realizing his expectations, a disturbance followed, and the upshot of it was, the head of the house, acting for his wife, agreed to settle the matter by leaving it to a third party, who was likely to do the right thing—at least by him. All were satisfied. The third man threw for both, giving lawyer four, gambler fifteen. Lawyer says he is sold.

The other case, in which a limb of the law figures, comes down yet harder. He had his dog stolen two weeks ago, and his house entered on Friday night last, by a rogue, who disturbed no one, but who managed to carry off a basket of silver forks and spoons, a pewter teapot, (taken for silver in the dark,) a pair of boots that would only fit Daniel Lambert and the owner; a coat, containing a brief or two and a few unpaid bills—left for collection, of course—a tray of tea dishes, part of a mop handle, and the key of the front door—all of which, it is supposed, were carried off in a cotton bandanna, filched from a clothes-line in the yard. Tracks of mud were seen on the carpet when search was made, and a handful of American segars were found scattered over the floor. The rogue is thought to have come from Block Island, as there was a strong scent of codfish about the house the next morning. AQUIDNECK.

BORROWING TROUBLE.—The most miserable mortal, perhaps, upon this miasmic sphere, is he who has no present ill to complain of—except an over burden of gold and nothing to do—but who beats the bushes of the Future till he wakes up wild cats, lions and tigers, and brings a nest of hornets about his ears. He sees more horrid spectres and ominous apparitions in the distance than I can count days of delight blooming in my future pathway; and a soul quake threatens momentarily to demolish his wretched carnal habitation. His trembling imagination looks out daily from its mud-built cell, and every to-morrow is a deep valley of gloom, filled with devouring ogres, howling at the savory scent of his treasures. A little cloud not bigger than a man's hand, brews for him a storm of evil quicker than an old woman and ignited charcoal can raise a tempest in a tea-kettle. Poor mortal! he is blind as a bat at mid-day—blind to everything but the innumerable goblins of woe, which stalk in the darkness before him; deaf as an adder to all sounds save those that howl of approaching want and misery. Rich, and surrounded with all the comforts that the world can bestow, he *will* go a-fishing in the stagnant pond of the future for ills that he knows not of; and he is sure to get more bites in a minute, than I would to fish for a week at his elbow. Unhappy human! to look out, day after day, from a golden palace, upon an everlasting expanse of darkness and gloom! How much more glorious it is for me to sit in the door of poverty, with Contentment for my wife, and a crust for my dinner, and behold the blest sunshine gladdening the fields, and the dawn of still brighter days to come casting its sheen upon the distant mountain tops?—or to throw one leg across the other, and watch the smoke from my pipe ascending in graceful wreaths to a happy Heaven above!

A BUSINESS EDITOR.—The editor of the "Butler (Choctor county) Ala., Standard" alternately wields the pen and the hammer. He has two irons in the fire—a printing office and a blacksmith's shop—in both of which he deals heavy blows. In his printing office he hammers Know Nothingism, and in his blacksmith's shop hammers horse shoes, turpentine scrapers, dippers, &c. We have seen no specimens of his iron work, but we have before us, in the "Standard," some samples of his editorial labors. In this line we give below a specimen of his efforts. Alluding to the results of the late Alabama election, he records the death of "SAM," and adds:

"Sam was a youth of rare qualities, and while he remained North among his abolition friends, he enjoyed fine health and increased in prosperity daily with his father and with men.' No youth of his age had as fine prospects of success, at so early an age. But his ambition led him South, in quest of friends, and unfortunately, he tarried too long in the Old Dominion. While there, he was taken with a disease of the heart, from which he never recovered. Many of his friends believed when he had the first spasm in the Old Dominion, it would be a cholera case with him, but others more hopeful advised him to continue his journey South, hoping the balmy breezes of the climate might invigorate his system, and that he might ultimately recover. But alas! time has shown that the first impressions were too true, that his disease would prove fatal, for he expired on Monday evening last, at precisely 5 o'clock, in great agony, in the midst of a few faithful friends who evinced their devotion to him, by groans and lamentations, such as have not been heard in this region for many days.

"Samuel was an infant son of his Satanic majesty, in the second year of his age. He was born in the North, but the precise place of his birth is not known.—Some of his friends claim Boston, some New York, while others contend Hartford was the place of his birth. He had distinguished relations besides his father being a near relation to Ned Buntline, of the Penitentiary of New York, a first cousin of Horace Greeley, and a second cousin to Senator Wilson of Massachusetts. But Samuel is no more! He has gone to that bourne from whence no traveller e'er returns!"—Richmond, Va., Enq.

"WASN'T MUCH ON FIGGERS."—An old woman keeping a so called "cookey stand," was one day accosted by a wag, with—

"How do you sell these oranges?"

"Two cents."

"Well," said he, taking up one and turning it over in his hand, "how do you sel this cake?"

"The same price."

"Supposing I give you back the orange and take the cake?"

"Very well."

"Is this pie two cents?"

"Yes."

"Well, I'll take this pie after all, instead of the cake. What do you ask for cider?"

"Two cents a glass."

"Take this pie back and give me a drink of it."

"Certainly."

A glass was filled and handed to this customer, who, after swallowing the same, and smacking his lips with great gusto, was deliberately walking off, when he was accosted with—

"Please, master, you havn't paid for your cider."

Our friend coolly observed.

"What should I pay for?"

"That cider, to be sure."

"Didn't I give you the pie for it?"

"Yes, but you didn't pay for the pie."

"Very well, I exchanged the cake for it."

"Yes, but you didn't pay for that."

"I gave you the orange for it."

"The orange is two cents."

"Well, why should I pay for it, I didn't eat it, did I?"

"No matter," exclaimed the dame, "no matter, there's a mistake somewhere, but I can't see it; *I never was much on figgers; however, you needn't call again.*"

BY TELEGRAPH.

BOSTON Nov. 6.

The election to-day produced unusual excitement, but everything passed off good naturedly. Boston gives Gardner, American, over 1100 plurality. In 45 cities and towns heard from up to 7 o'clock, Gardner is largely ahead, and the Americans are in high glee. A plurality elects.

Second Dispatch.—Returns from 198 towns foot up as follows: Gardner 39,427. Beach 22,747, Waley 10,215, Rockwell 26,134. Gardner's plurality thus far 13,293. The Americans have probably elected a majority of the Legislature, though at this early hour such results is not fully known. The Americans are celebrating their victory with fire-works, music and a procession.

NEW ORLEANS, Nov 6

The Know Nothings have carried this city by a large majority. We have no indication yet of the result in the State, but the chances are in favor of the Americans.

NEW YORK, Nov. 6, Half Past 12 P. M.—In Orleans county the K. N. State ticket is elected by over 200 majority. In 49 towns the vote stands—Headley, 7,700; King, (Fusion) 7,500; Hatch, (Soft) 3,000; Ward, (Hard) 2,300. In 78 Districts in the city, about one half, the vote stands—Headley, 11,300; Ward, 10,300; Hatch, 7,000; King, 3,800.

GOLDEN-HEADED EAGLE.—A fine specie men of this magnificent bird was shot with a rifle on Thursday, about twelve miles west of this city. It has been purchased by Mr. Cadmus, and will be exhibited at his market, No. 14 Market street. It measures 6 feet 8 inches from tip to tip of the wings, and weighs some 12 or 14 pounds. The hooked claws are two inches long from the end of the toes, and exceedingly strong; beak curved, strong, and 2 1-4 inches in length; legs 14 inches long. In color it is nearly black, or rather of a general dark smoke tint, with scattered white feathers; but the top of the head and a portion of the neck are yellow—hence the name of golden-headed eagle.—The top of the wings also show a line of yellow feathers. The beak and claws are black, but both are bright yellow at the base. The tail is interspersed with white. The head and mouth are large, and altogether the bird is a fine specimen of this rare species of the eagle, which is not often seen in Connecticut. Quite a number of lambs have been missed from the neighborhood where he was shot, and it is believed this savage marauder carried them off.—He was evidently capable of it.—Hartford Times.

To horse owners, stable keepers and others—Dyers' Healing Embrocation has proved to be one of the best remedies for lameness, caused by strains, bruises, spavin or other accidental causes as well as for wounds, galls or other injuries that are frequently occurring to horses and other animals. It is also the cheapest preparation that can be used. A stable keeper in Providence says,—

"I have frequently used it with the most decided marked results upon my horses. I use it in all cases of cuts, wounds and bruises, and for internal pains and distress, and it never fails to give immediate relief, or to effect a cure.

It will heal wounds, cuts or sores, upon man or animals, sooner than any other preparation I have ever used.

THE GREATEST WONDER OF THE AGE.

A REMEDY Which CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cognac Bitters.—This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt the best, most efficient and generally acknowledged remedy against cholera, dysentery, diarrhœa, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 p. c ent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for biliousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubtal success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them. HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These famous Pills are expressly combined to operate on the stomach, the liver the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all others means have failed.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases.

Asthma	Debility	Liver Complaint
Bowel Complaints	Fever and Ague	Lowness of Spirits
Coughs	Female Complaints	Piles
Colds	Headaches	Stone and Gravel
Chest Diseases	Indigestion	Secondary Symptoms
Costiveness	Influenza	Venereal Affections
Dyspepsia	Inflammation	Worms, of all kinds.
Diarrhœa	Inward weakness

PROFESSOR WOOD'S HAIR RESTORATIVE
IS, no doubt, the most wonderful discovery of this age of progress. The following is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.
Prof. O. J. Wood,—Dear Sir—Unsolicited, I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced on hearing of yours, to give it a trial. I placed myself in the hands of a barber, and had my head well rubbed with a good stiff brush, and the Restorative then applied and well rubbed in, till the scalp was all a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last up to the present time, and is now thick, black, and strong—soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it, and that little was disappearing rapidly. I still use your Restorative about twice a week, and shall soon have a good and perfect crop of hair. Now, I have read of these things—and who has not?—but have never seen hitherto, any case in which any person's hair was really benefitted by any of the hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory. The people here saw its effects, and have confidence in it. All who have used it here, will coincide with me in what I have written. The supply you sent us, as the wholesale agents for the Territory, is already exhausted, and daily inquiries are made for it You deserve credit for your discovery. I for one return you thanks for the benefit it has done me, for I certainly had despaired long ago, of ever effecting such result. I congratulate you that your fortune (and a large one) is already made.
Yours, hastily,
J. W. BOND,
Firm of Bond & Kellog, Druggists, St. Paul, [M. T.

Brookfield, Mass., Jan'y 12th, 1855.
Prof. Wood,—Dear Sir,—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching with which I have been troubled from childhood, and has also restored hair which was becoming gray, to its original color. I have used no other article with anything like the pleasure and profit.
Yours truly,
J. K. BRAGG,
Pastor of the Orthodox Church, Brookfield,

THE Burglar's Alarm and Physician's Night Bell and Lamp!—This instrument, patented August 21, 1855, is simple and certain in its operation, and gives security against the depredations of burglars. An attempt to open any door or window connected with this apparatus, will cause an alarm loud and long, to be rung, and a common hand lamp to be lighted at the same instant. The burglar, frightened at the alarm he has raised, will hastily abscond, even before an actual entrance is made.
Physicians and Apothecaries will also find the article of great utility For such purposes, it is operated by a bell-pull at the street door, and will save the expense and convenience of a constantly burning light.
When compared with other instruments invented for the same purpose, this alarm is admitted to be vastly superior, both as to the efficacy of the alarm, and the certainty of ignition.

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by C. G. HANDY, Depot 228 Thames-st.

Premium awarded at the late Fair of the American Institute. Copyright secured A.D. 1851. m12

SPRATT'S LIGHTNING RODS!

WITH branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron, and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seam.

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of there rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.
B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.
